

MEGAPOXY 154

Megapoxy 154 is a two component water borne epoxy which combines the excellent adhesion and toughness of Megapoxy resins with the advantages of using water as a carrier.

APPLICATIONS

Megapoxy 154 is ideal for application over newly set concrete to prevent excessive water loss during cure and to form an impervious oil resistant non-dusting surface. If required it may be over coated with conventional paints.

ADVANTAGES

- Forms a tough impervious coating with a matt finish.
- Excellent adhesion to wet or dry surface, including freshly poured concrete.
- Simple 1 : 1 mix ratio.
- Easy to apply by brush, roller or spray.
- Odourless; relatively non-toxic and non-flammable.
- Equipment may be cleaned up with water.
- Economical – supplied as a concentrate, requires dilution with extra water before application.

AVAILABILITY

Megapoxy 154 is available in 4 litre and 20 litre kits. For convenience, these kits are pre weighed in correct proportions.
